

2020 SENTARA
CANCER NETWORK

PRIMARY SITE
TABLES

We collect data on cases diagnosed and treated at each facility in our network. Analytic cases are cases diagnosed and/or treated during the first course of treatment at the assigned institution. Please note that the sum of the individual facilities may not add up as some cases are shared among multiple facilities, which affects the totals.

This table's data is collected by the Sentara Cancer Network Registry Subcommittee from the Hampton Roads region and other regional registrars.
